

Lincoln Elementary School

Athletic Code of Ethics

The Lincoln Athletic Program is an integral part of our total school program. It is an opportunity to allow all students to acquire progressively the skills, knowledge, and attitudes that lead to the maximum development within their individual capabilities. It also affords the child an opportunity to develop social skills in order to be a well-adjusted individual. When students elect to participate in the athletic program they must recognize that they have assumed certain responsibilities and obligations to the coach, to the members of the team, and certainly to themselves.
